## ROOSEVELT FLIES TO CONVENTION TO MAKE SPEECH

Will Outline His Attitude On  
All the National  
Issues

STARTS A PRECEDENT

Accompanied by Wife, Two  
Sons and Few  
Friends

By Leon O'Brien  
I. N. S. Special Correspondent  
ALBANY, N. Y., July 2.—(INS)—  
Governor Franklin D. Roosevelt, Dem-  
ocratic candidate for President of the  
United States, today prepared to make  
political history by flying to the Dem-  
ocratic National Convention in Chi-  
cago to address the delegates and re-  
ceive formal notification of his nomi-  
nation.

The Governor will put the finishing  
touches to his notification speech en-  
route to Chicago and lay his views on  
national issues before the country less  
than 24 hours after his nomination by  
the Democratic party. This establishes  
a precedent.

His plane, a 13-passenger tri-motor  
model, was scheduled to take off from  
the Albany airport at 8 a. m. (daylight  
saving time.) It is due in Chicago at  
2.30 p. m. and stops are scheduled for  
refueling at Buffalo and Cleveland.  
There were to be ten passengers, in-  
cluding the Governor and Mrs. Roose-  
velt and their two sons, Elliott and  
John.

Governor Roosevelt decided several  
days ago to make the flight if nomi-  
nated and the plane has been waiting  
for him at the local airport for sev-  
eral days. He explained that he wished  
to receive formal notification at once  
to save an expensive gathering in Al-  
bany later in the summer, but it was  
said that his real purpose was to get  
the Democratic campaign off to a fly-  
ing start.

Franklin Delano Roosevelt is the  
Democratic Presidential candidate.

A sudden stampede of holdout,  
favorite son delegations last night  
swept over the opposition to the New  
York Governor and thrust him easily  
past the two-thirds necessary for  
nomination.

It was the fourth ballot of the Na-  
tional Convention, the first of the  
night session. The vote was:

Roosevelt, 945.

Alfred E. Smith, 1904.

Scattered, 13.

The switch to the winning banner  
was started by California, pledged  
with Texas to John Nance Garner,  
Speaker of the House. The two dele-  
gations, controlling 90 votes, were re-  
leased earlier in the night by Garner,  
and they immediately went to Roose-  
velt.

Fourth on the list of States, Califor-  
nia was the first to change from its  
stand on the morning's third ballot.  
William Gibbs McAdoo, delegation  
chairman, arose to announce his  
State's 44 solidly for Roosevelt.

## SEARCH FOR MAN WHO WROTE SUICIDE NOTE

Find Watch, Ring, Money and  
Clothing Near Edding-  
ton Station

## OUT OF EMPLOYMENT

Going to a spot near the P. R. R.  
station at Eddington as directed in a  
letter from their brother, Walter and  
Russell Patterson, found their brother's  
watch, money, ring and two coats.  
In the letter Robert told his brothers  
not to try to find his body.

Robert L. Patterson, 49, Fox Chase  
Hotel, is missing and his relatives and  
friends aided by police are conducting  
a thorough search for him.

Forty-nine, and "too old to find a  
job," Patterson, of the Fox Chase Ho-  
tel, Oxford avenue and Rhawn street,  
Philadelphia, wrote a letter directing  
his brothers to find his valuables near  
the Eddington station, because he was  
going to end his life.

Walter B. and Russell Patterson, of  
Lansdowne, hurried to the spot yester-  
day where a watch, ring, a sum of  
money and clothing tied in a bundle  
were found beside a narrow road. A  
search failed to reveal their brother,  
and they asked the State Police at  
Morrisville barracks to aid in the  
search.

Patterson was formerly a railroad  
conductor. He had been out of work  
for a long time, and efforts to find  
employment led to his rejection because  
of his age, he had told friends.

"It will be useless for you to look  
for my body," he wrote Walter Patter-  
son, "as I intend to travel some dis-  
tance from Philadelphia before taking  
my life."

Patterson was unmarried.

## BELIEVE FARMER'S WIFE ELOPED WITH FARMHAND

Mrs. Althea Beese Takes Her  
Daughters With Her After  
Emilie Battle

## POLICE MAKE SEARCH

An intense search is being carried  
on by police authorities for an Emilie  
farm-hand who is said to have left  
the farm of his employer last evening  
taking with him the wife of the farm-  
er and her two daughters.

Those being searched for are Ed-  
ward K. Bender, Mrs. Althea Beese,  
and her daughters, Helen, 11, and Al-  
thea, 8.

It is stated by Beese that Bender, a  
farm-hand, after a dispute over Ben-  
der's coaxing Mrs. Beese to go away  
with him, threatened to shoot him  
(Beese). Bender is said to have se-  
cured a revolver, but after Beese's  
two sons, John and Bernard, went to  
the aid of their father, Bender discard-  
ed the weapon. Shortly after, it is al-  
leged, Bender, Mrs. Beese, and the two  
girls hurried toward Bristol, and are  
said to have been seen walking along  
the roadway in that direction. They  
have not been reported as seen since.

A motorist stopped at the municipal  
building here last evening, telling of-  
ficers that a man, spattered with  
blood, had halted him near Emilie,  
the distressed individual telling the au-  
telist that another man was waiting  
nearby in the bushes, armed with a re-  
volver. The local authorities sent a call  
to the highway patrol, who with Con-  
stable Thomas Crawford and State Po-  
lice of Morrisville barracks, commen-  
ced an investigation.

Bender is said to be estranged from  
his wife, Margaret, who lives in Phil-  
adelphia.

The quartet has not yet been lo-  
cated.

## WOMEN LISTEN TO TALK ABOUT WATER GARDENS

L. J. Williams Tells of Erec-  
tion of Pools, Variety of  
Plants, Etc.

## WILLS' HOME, EDGELY

Formal and informal water gardens,  
their contour, location, what to plant  
in them, habits of water garden plants,  
fish, and the necessary scavengers,  
were discussed before 20 members of  
the Garden Section of Bristol Travel  
Club upon the lawn of the residence  
of Mrs. Franklin K. Wills, Edgely, yester-  
day afternoon.

The message of excellent infor-  
mation, with countless helpful sug-  
gestions, was brought by L. J. Williams,  
of the Bustleton Gardens.

That attractive water gardens can  
be made inexpensively, and by using  
some plants from nearby creeks and  
swamps coupled with splendid variety  
of lilies, and hardy cultivated things  
gardens that will make for beauty,  
was brought out.

Five things that can be put into such  
are: Lilies, floating plants, and those  
of oxydizing variety, mulch, fish and  
scavengers. The plants and scaven-  
gers keep the lily pools clean and in-  
formed.

"The natural bottom makes the finest  
kind of pool in which to raise water  
lilies," Mr. Williams informed. "Bet-  
ter results are obtained in such than  
in any artificial pool." That the re-  
stricted growth of roots hampers the  
plants greatly was told when boxes  
and tubs were mentioned in which  
lilies might be planted. The contain-  
ers should be of ample size to allow  
for expansion of the roots. "The depth  
of the pool in spots should be such  
that the floating plants can touch the  
soil. This can be arranged either by  
having a slanting pool, or rocks piled  
up in the water with soil on top,"  
continued the grower of plants.

"Lilies thrive in warm water," added  
Mr. Williams, as he advocated a sunny  
spot for erection of a pool. He men-  
tioned various kinds of lilies, telling  
that in time an Egyptian lily plant  
will monopolize an entire pool. In  
telling of the characteristics of the  
Amazon lily the women were informed  
the pads reach a size of six feet in  
diameter, and will at full size support  
from 50 to 100 pounds. "These bloom  
freely, but are most peculiar," the in-  
formant told. "The first day the  
blooms are white, the next day turn  
pale pink, and on the third day they  
die." These were advocated only for  
pools of exceptional size or for  
ponds. "The hardy lilies are best, they  
are free bloomers and are inexpensive."

Tropical lilies are divided into two  
classes, the day and night blooming.  
In referring to the kinds of floating  
plants, the most popular were said to  
be: Shell flower, water hyacinth, wa-  
ter fern, water snowflake. Oxydizing  
plants include: Water poppy, parrots  
feather, umbrella palm, and marsh  
plants. "There are thousands of  
plants you can place in the pools,  
which will thrive. The more you study

## LORDLY HUDSON BOASTS OF STORM KING HIGHWAY

Albany, Capital of New York,  
is Destination of Splen-  
did Trip

## RETURN TRIP 440 MILES

Northward along the lordly Hudson  
winds the famous Storm King High-  
way, one of America's most excellent  
main trunk motor highways. Highly  
scenic sections set amid historic back-  
ground makes this wide ribbon of con-  
crete a most desirable artery of travel  
for an attractive motor tour as out-  
lined by the Keystone Automobile Club.

On the banks of the Hudson in the  
very heart of a vacation land is lo-  
cated Albany, the objective of this  
trip. Side trips for a more extended  
vacation journey can be made from  
Albany to the lake and mountain re-  
gions in upper New York State or to  
the eastward similar journeys lead  
into New England. The distance to  
Albany is approximately 220 miles.

Northward from Doylestown the  
tour leads over U. S. Route 611  
through Easton to a point beyond  
Martins Creek where a right turn is  
made into state route 827 which is fol-  
lowed to the first concrete intersection  
where a left turn leads through Rich-  
mond to Mt. Bethel. Here U. S. Route  
611 is again met and used to the Dela-  
ware Water Gap. From this point the  
route continues straight ahead over  
state route 302 which is a short cut to  
Stroudsburg. From here U. S. Route  
209 is followed along the shore of the  
Delaware River through Dingmans  
Ferry and Milford to Port Jervis, N. Y.

From this point U. S. Route 6N  
winds through delightful rural regions  
of New York to Napanoch where the  
steeper grades are met and the jour-  
ney continues along the foothills of  
the southern Catskill Hills enroute to  
Kingston. Here a left turn is made  
into the Storm King Highway, U. S.  
Route 9W which winds along the west  
bank of the lordly Hudson. Some of  
the most exquisite scenery in North  
America is passed between Saugerties  
and the village of Catskill in this leg-  
endary land of Rip Van Winkle. At  
Albany a stop-over is suggested as the  
New York State Capital city contains  
scores of points of interest for tour-  
ists.

On the homeward trip the four leads  
across the river to Rensselaer where a  
right turn carries the travelers south  
to U. S. Route 9 leading through East  
Greenbush, Hudson, Rhinebeck,  
Poughkeepsie and Fishkill to Pook-  
kill. Here a right turn leads over U. S.  
Route 6 across the Bear Mountain  
Bridge. Northward this roadway com-  
bines with the Storm King Highway  
to West Point, one of the outstanding  
points of scenic and historic interest  
on the Hudson. Southward from West  
Point the tour leads to Highland Falls  
where a right turn is made into U. S.  
Route 6 leading through Central Val-  
ley, Monroe, Goshen and Slate Hill to  
Fort Jervis. From this point the re-  
mainder of the homeward trip can be  
made over the same highways used  
on the outbound journey.

# Declaration of Independence

IN CONGRESS JULY 4, 1776

## THE UNANIMOUS DECLARATION OF THE THIRTEEN UNITED STATES OF AMERICA

WHEN, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.—We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain inalienable Rights, that among these are Life, Liberty and the pursuit of Happiness.—That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed.—That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object, evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.—Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.—He has refused his Assent to Laws, the most wholesome and necessary for the public good.—He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.—He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.—He has called together legislative bodies at places

unusual, uncomfortable, and distant from the depository of their public Records, for the sole purpose of fatiguing them into compliance with his measures.—He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.—He has refused for a long time, after such dissolutions, to cause others to be elected;—whereby the Legislative powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the meantime exposed to all the dangers of invasion from without and convulsions within.—He has endeavored to prevent the population of these States, for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.—He has made Judges dependent on his Will alone, for the tenure of their offices, and the amount and payment of their salaries.—He has erected a multitude of New Offices, and sent hither swarms of Officers to harass our people, and eat out their substance.—He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.—He has affected to render the Military independent of and superior to Civil power.—He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our Laws; giving his Assent to their Acts of pretended Legislation:—For quartering large bodies of armed troops among us:—For protecting them, by a mock Trial, from punishment for any Murders which they should commit on the Inhabitants of these States:—For cutting off our Trade with all parts of the world:—For imposing Taxes on us without our Consent:—For depriving us in many cases of the benefits of Trial by Jury:—For transporting us beyond Seas to be tried for pretended offences:—For abolishing the free System of English Laws in a neighboring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies:—For taking away our Charters, abolishing our most valuable Laws, and altering fundamentally the Forms of our Governments:—For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.—He has abdicated Government here, by declaring us out of his Protection and waging War against us.—He has plundered our seas, ravaged our Coasts, burnt our towns, and destroyed the Lives of our people.—He is at this time trans-

porting large Armies of foreign Mercenaries to compleat the works of death, desolation and tyranny, already begun with circumstances of Cruelty & perfidy scarcely paralleled in the most barbarous age, and totally unworthy the Head of a civilized nation.—He has constrained our fellow-citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.—He has excited domestic insurrections amongst us, and has endeavored to bring on the inhabitants of our frontiers, the merciless Indian Savages, whose known rule of warfare, is an undistinguished destruction of all ages, sexes and conditions. In every stage of these Oppressions we have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury. A Prince, whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people. Nor have we been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They too have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War; in Peace, Friends.—We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be, FREE AND INDEPENDENT STATES; that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do.—And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes and our sacred Honor.
